· Find · Cut · Punch ·

1 Source sheets of reclaimed gift wrap and patterned paper.

2 Cut the sheets into strips 30mm wide.

3 Cut the 30mm strips of paper into 3 different lengths.

· Connect · Build · Layer ·

4 Using the point end of the safe-saw, punch a hole at each end of the coloured strips.

5 To form a heart, 6 strips of paper are needed. Place the strips above one another ranging from longest to shortest for each side of the heart as shown in the image.

6 Using the Makedo re-pin and re-clip, connect the strips together at one end. Ensure that the shortest length is positioned on the outer side when connected.

· Connect · Build · Share ·

7 To form the heart, hold each free end of the paper and bend it outwards. Bring the ends together and connect using a Makedo re-pin and re-clip.

8 Continue to connect the hearts together. The heart chain can take any form and shape, just be creative with it! The possibilities are truly endless. Share and upload your creation to mymakedo.com.
